

FAI-A: Online Approval of AS9102 FAI Reports

Course Description:

Review and Approve AS9102 FAI Reports is a one-hour course for supply chain quality engineers who sign off on the AS9102 forms. This course provides the basics of accessing and reviewing the AS9102 document. Additionally, the process of approval, or dispositioning for additional work by the supplier, is covered. Finally using the application as a collaboration tool will also be discussed.

Course Objective:

By the end of the course, participants will be able to access the online FAI Report, review the accountable characteristics and reported results, and approve the report online or return it to the manufacturer. The scorecard highlighting failing results and problem areas will be reviewed.

Course Outline:

- Introduction
- Access a submitted AS9102 FAI Report
- Review the requirements scorecard and details
- Review AS9102 Forms 1 and 2
- Approve the submitted report or reset the report to “In Process” if not approved
- Questions and review of available resources

Activities and Assessment:

Participants will be given a brief overview of where the Powerway web-based software fits within their engineering, quality, and supply chain business activities. A step-by-step process will be introduced with a sample submitted AS9102 FAI Report corresponding to the Quick Reference Guide delivered to each participant. A Question and Answer period will be available at the end of the webinar. Additional support resources will be described so that all participants know who to contact and what Powerway-provided training, FAQs, and white papers are available.

Course Pre-requisites:

Participants must be able to navigate the Internet, have basic computer skills, and understand GD&T terminology. They must understand their company’s requirements for AS9102 and be familiar with their internal supply chain management and quality business processes.

Course Materials:

Course handouts include a Process Overview, Glossary of Terms, and Online Approval of AS9102 FAI Reports Quick Reference.

Course Cost:

\$69 per attendee
